

**CITY OF GILROY CLIMATE ACTION PLAN
PRELIMINARY MEASURES EVALUATION**

Instructions

Please review and respond in writing to as many categories and measures as your time, interest, and energy allows using the downloaded forms, as follows:

1. Read the description for each measure on the left column and the City comments to the right that further explain the proposed policy, program, regulation, or action.
2. The shaded rows reflect City staff responses: M or C - Does the Municipality (M) or the Community (C) control the measure? Should we exclude or include the proposed measure; do we need more information to decide, and/or is the measures already implemented by the City?
3. Check "X" in the appropriate non-shaded columns directly under the shaded portion: Should we Exclude, Need More Information, or Include the measure, or are you or someone besides the City Already Doing it?
4. Please write additional comments or questions below your X'd responses.
5. Please add new measures in the rows provided at the end of each category.

| Measure | Comments | Municipal (M) Community (C) | Exclude | More Info | Include | Already Doing |
|---|--|--------------------------------|---------|-----------|---------|---------------|
| Agriculture and Open Space (A) | | | | | | |
| A-1 Create infill incentives to locate new projects on infill sites and land served by existing services | Projects are required to locate in General Plan 2020 boundaries within the urban service areas | M | | X | X | |
| A-2 Develop a City program for sequestering carbon on municipal property through drought-resistance, street-friendly tree planting and wetlands management practices. | Develop more aggressive program as contingent on funding | M | | | X | X |
| A-3 Maintain program community gardens. Identify and inventory potential community garden and urban farm sites on existing parks, public easements, right-of-ways, and schoolyards. | The community demonstration garden is dependent on future resources | C | | | X | X |
| A-4 Pursue joint-use agreements to share recreational facilities with schools, particularly in areas that lack recreational facilities. | Check on City joint-use agreements | M/C | | X | X | X |
| A-5 Implement an urban forestry plan | 1. Coordinate with current tree planting plans 2. Contingent on funding availability | M | | | X | X |
| | | | | | | |
